

What if this was your primary source of water?

A quarter of the world's population is without safe drinking water.

Water For Life's mission is to help communities in need develop safe and sustainable water sources.

By combining formal instruction with hands-on training we teach people how to construct and maintain their own local water resources. Our focus is not simply to provide safe drinking to those in need—our goal is to help people gain the knowledge and experience they need to help themselves and their communities.

Water for Life uses a combination of appropriate water technologies, water health education and basic research so that communities can identify and solve their water problems. Our mission is not to simply provide safe water to those in need, but to train individuals and communities to create and maintain their own local water resources. We do so by a highly interactive process combining formal instruction with hands-on training.

Alpha & Omega Processing is proud to support Water for Life. Visit us at www.AOPsales.com

No Annual Fees.

Zippo. Nada. None. Never.

No surprises. No gimmicks.

Annual Fees are simply a bogus way for processors to make an extra buck. In this economy, we've got to all stick together.

Raising the bar for Merchant Services Providers Everywhere.

Part of our profits go to support Water for Life.

At AOP, we offer an array of products to help you grow your business. We're picky about what we offer, so we've chosen the best solutions available for our clients. We offer at least 3 different Gift Card Products because there is no "One-Size-Fits-All" Gift Card Solution. Each one of our clients is different, so we have to be versatile and able to understand which solution fits our clients' needs the best.

No Early Termination Fees

We will earn your business every single day. No "get-out-of-jail" fees. No scheduled rate increases... We're in it for the long haul, and we hope AOP will be the first and last relationship you'll ever need as a Credit Card Processor.

Interchange-Plus Pricing

Visa, MasterCard and Discover all have set rates that they pass to certain industry types. Your Retail Store, Restaurant, Utility Company or Government Service, will have consistent rates with every processor. So we offer these rates and have won the business of Major Universities, Restaurant Chains and Sporting Venues across the Southeast. Regardless of merchant size, we offer Interchange-Plus pricing because it's fair. Period.

PCI Compliance

Each one of our Payment Platforms is PCI Compliant. Every piece of equipment that we sell or place is PCI Compliant. At AOP, we examine how you process cards and store card-holder data, and we require our merchants to be PCI Compliant. We even offer PCI "Insurance" because no one is immune to a data breach. All we can do is lower our risk factors and educate ourselves on what new risks are posed each day. In the case of a breach, we'll be there right by your side to help you through Remediation.
